

THE ART OF THE CART

**Please remember these simple guidelines
and your collections will go according to plan!**

- Place carts with wheels against the curb
- Keep at least three feet between the carts
- Keep the carts at least three feet away from obstructions
- Don't park in front of the carts
- Carts should not be in your yard
- Overfilling carts can make them too heavy
- Liquid should not be in the cart
- Make sure you put the right cart out on its correct collection day
- Have the carts set out by 7:00 AM on collection days
- These items can never go in any of the carts – brown, blue or green:
 - Hazardous materials
 - Dead animals
 - Construction or demolition materials

Thanks for your help! Our drivers really appreciate it.
