COLOR CURBY

Curby the Blue Recycling Cart is 'screaming' for more recyclables!
Color Curby **blue** and then use any **4 colors** to finish coloring the page.

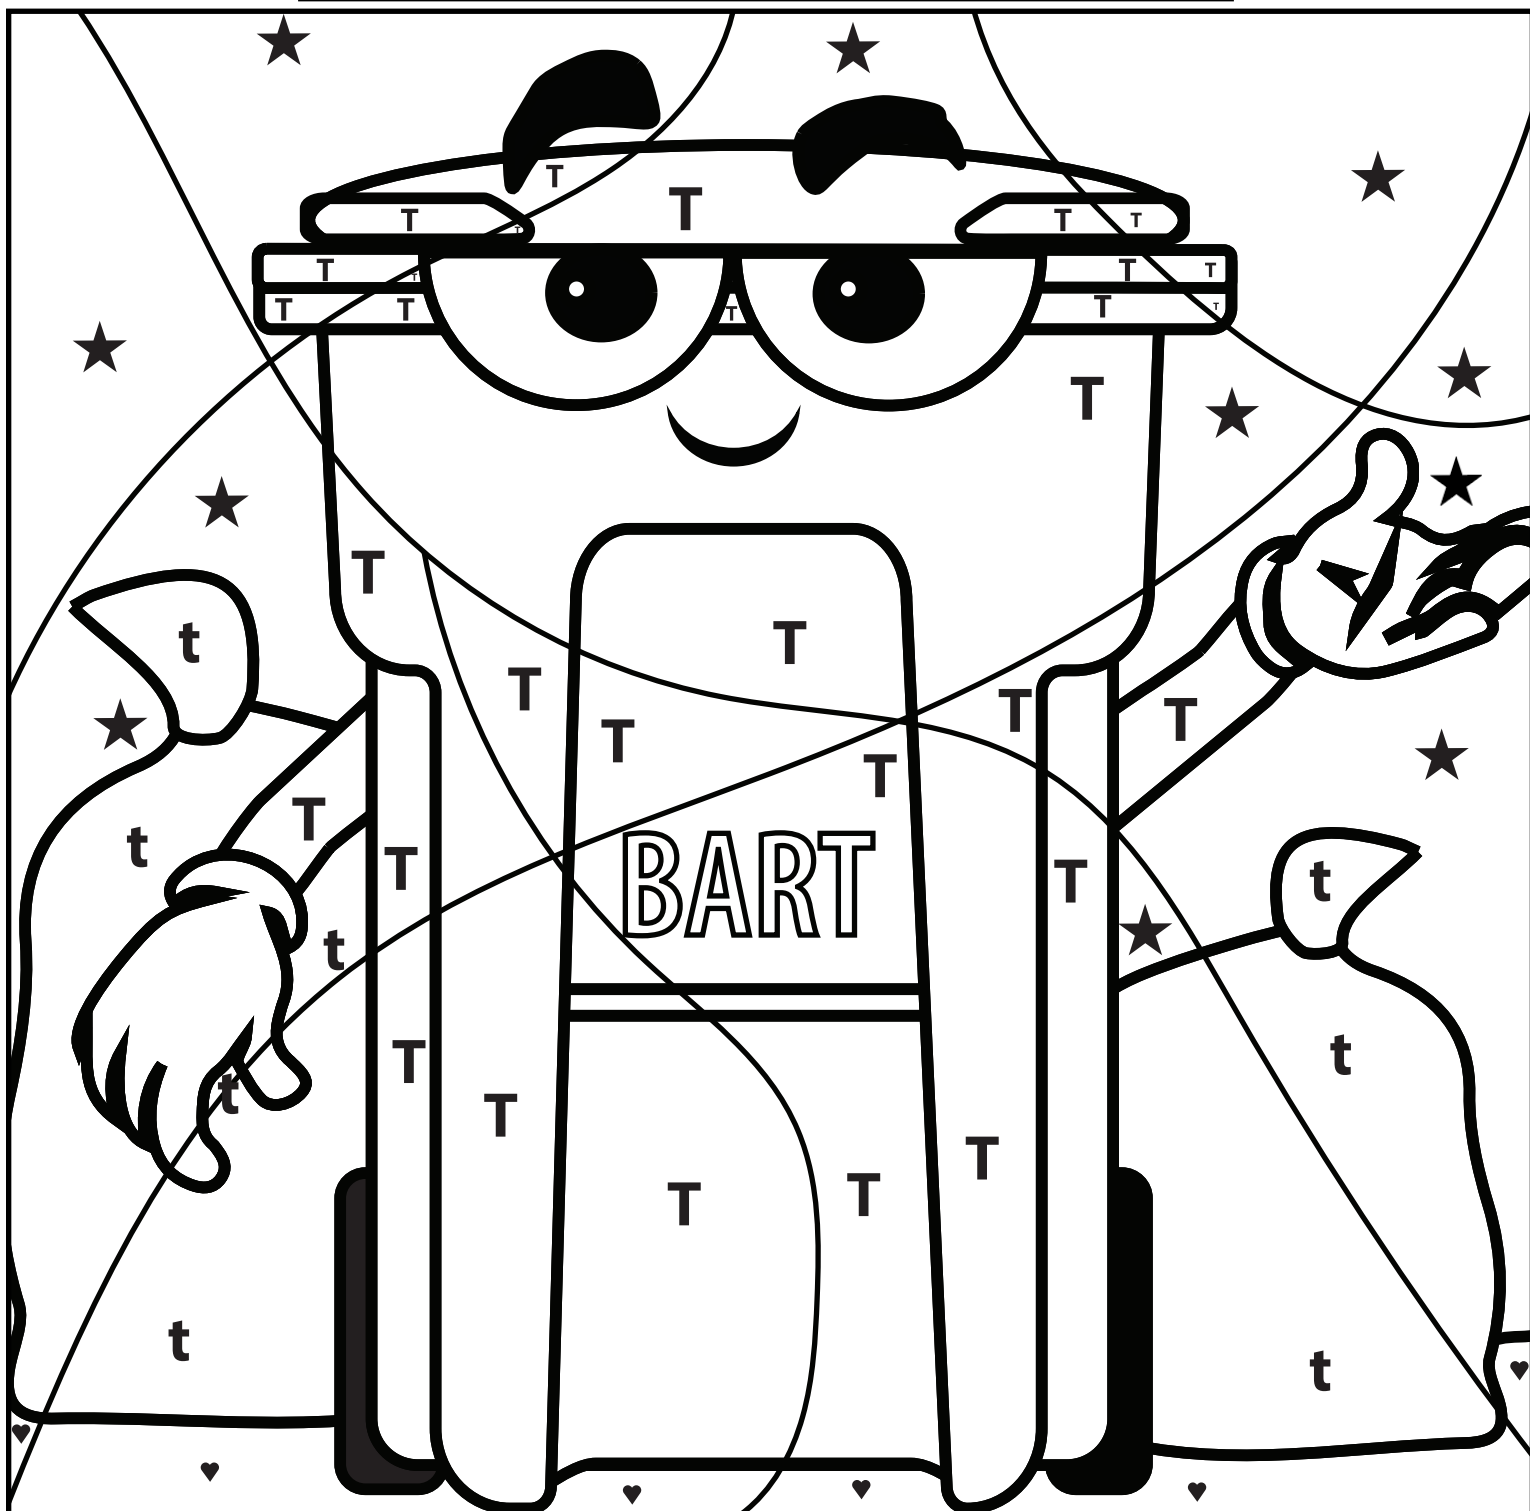

Inspired by Edvard Munch's 1893, *The Scream*.

T is for Trash

The letter **Tt** is for TRASH. Trash is what you put into your Brown Trash Cart to get taken to the landfill. Use this box to help you color the picture of Bart the Brown Cart.

T = Brown ★ = Light Blue

t = Black ♥ = Green

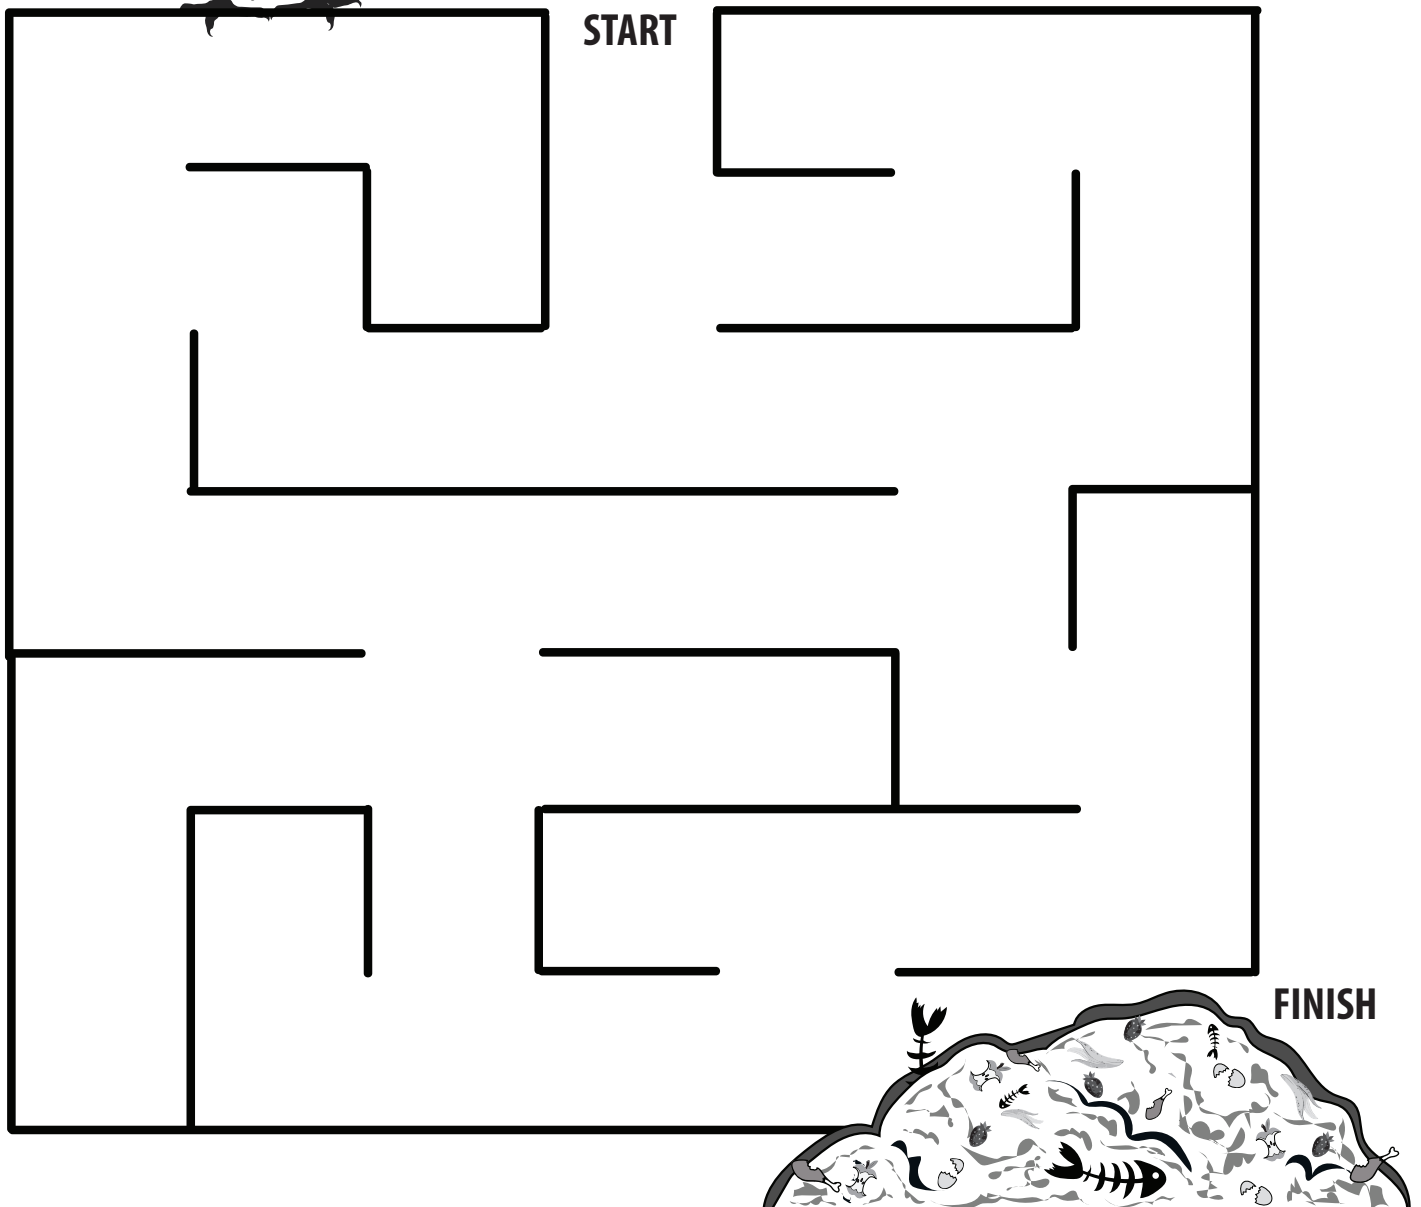

Garbage Superheroes

Vultures are nature's garbage superheroes. They have super strong stomach acid that helps them eat and digest just about anything! They can eat dead things with diseases without getting sick!

Vultures help keep our ecosystems healthy. Without them, diseases would spread and our world would be really smelly! **So, next time you see one, don't be afraid just say, "thank you!"**

Solve the maze by helping this hungry vulture find his way to a yummy feast!

SEEK & FIND

Find the items in the picture below. Color the items once found.

The Mona Glenda

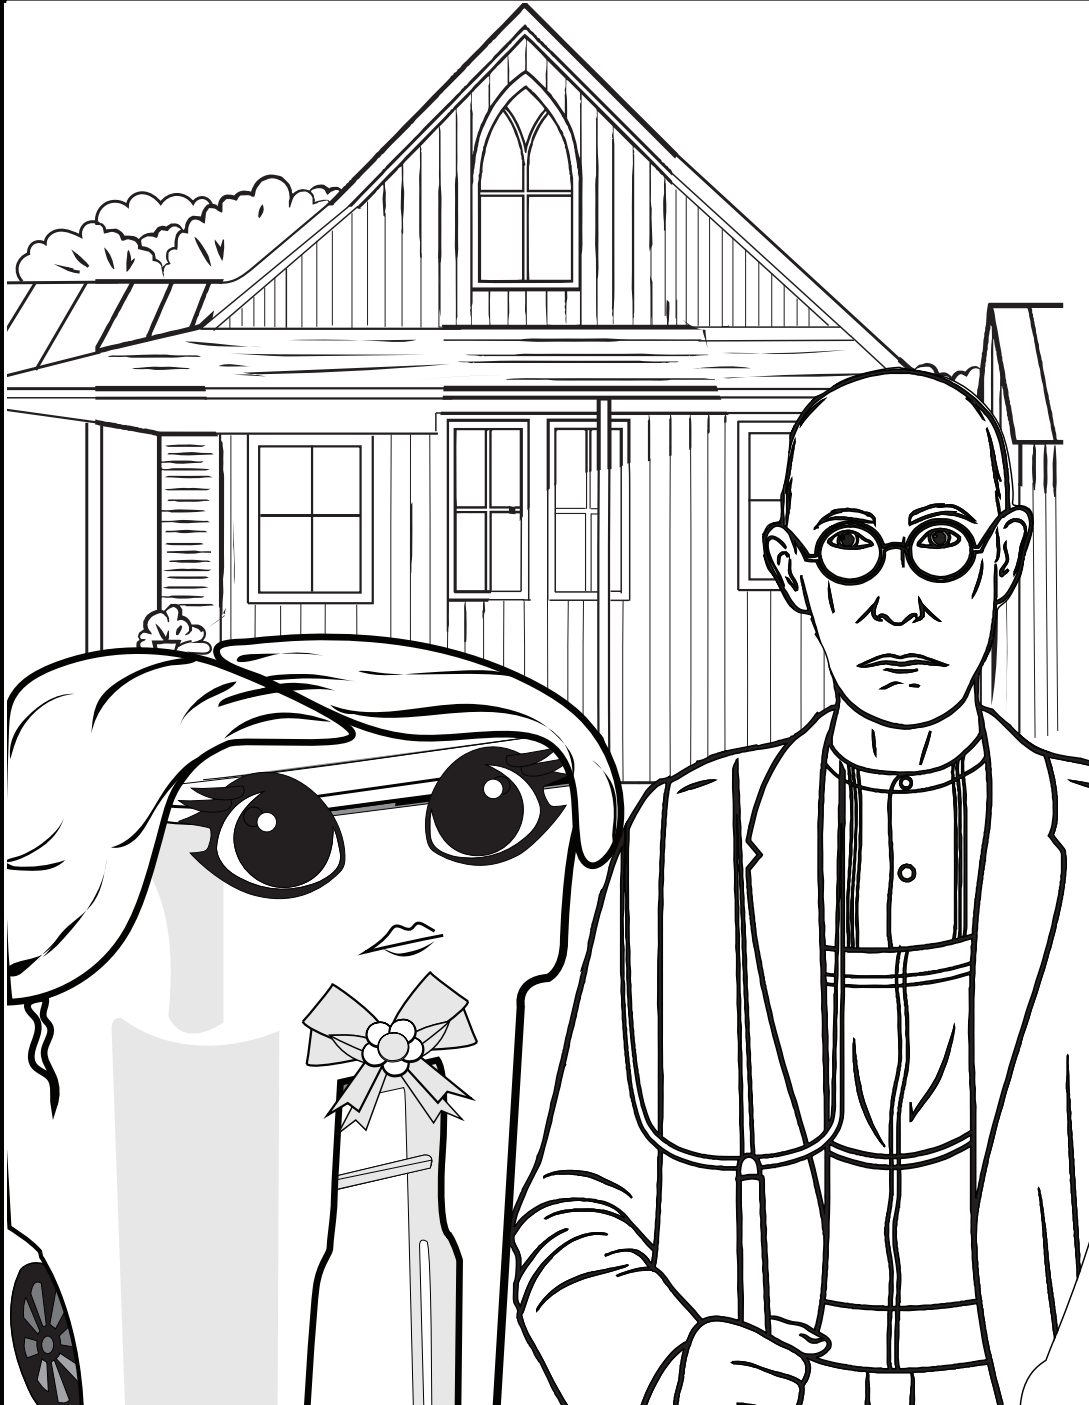

Did you know...the word 'Mona' means 'My lady'?
Color Glenda the Green Organics Cart posing as the famous Mona Lisa.

COMPOST

What is it?

Compost is a crumbly, dark type of dirt rich in nutrients that is used as mulch or fertilizer to grow plants. Compost is made from all of the food scraps, yard trimmings and other organic waste you put in your green organics cart.

Inspired by Grant Wood's 1930 painting, *American Gothic*.

Let's Count!

Trace the numbers and then write in the correct count next to each item.

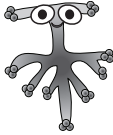

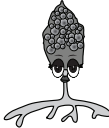

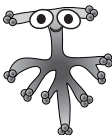

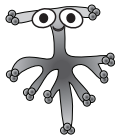

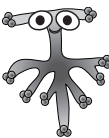

Did you know....

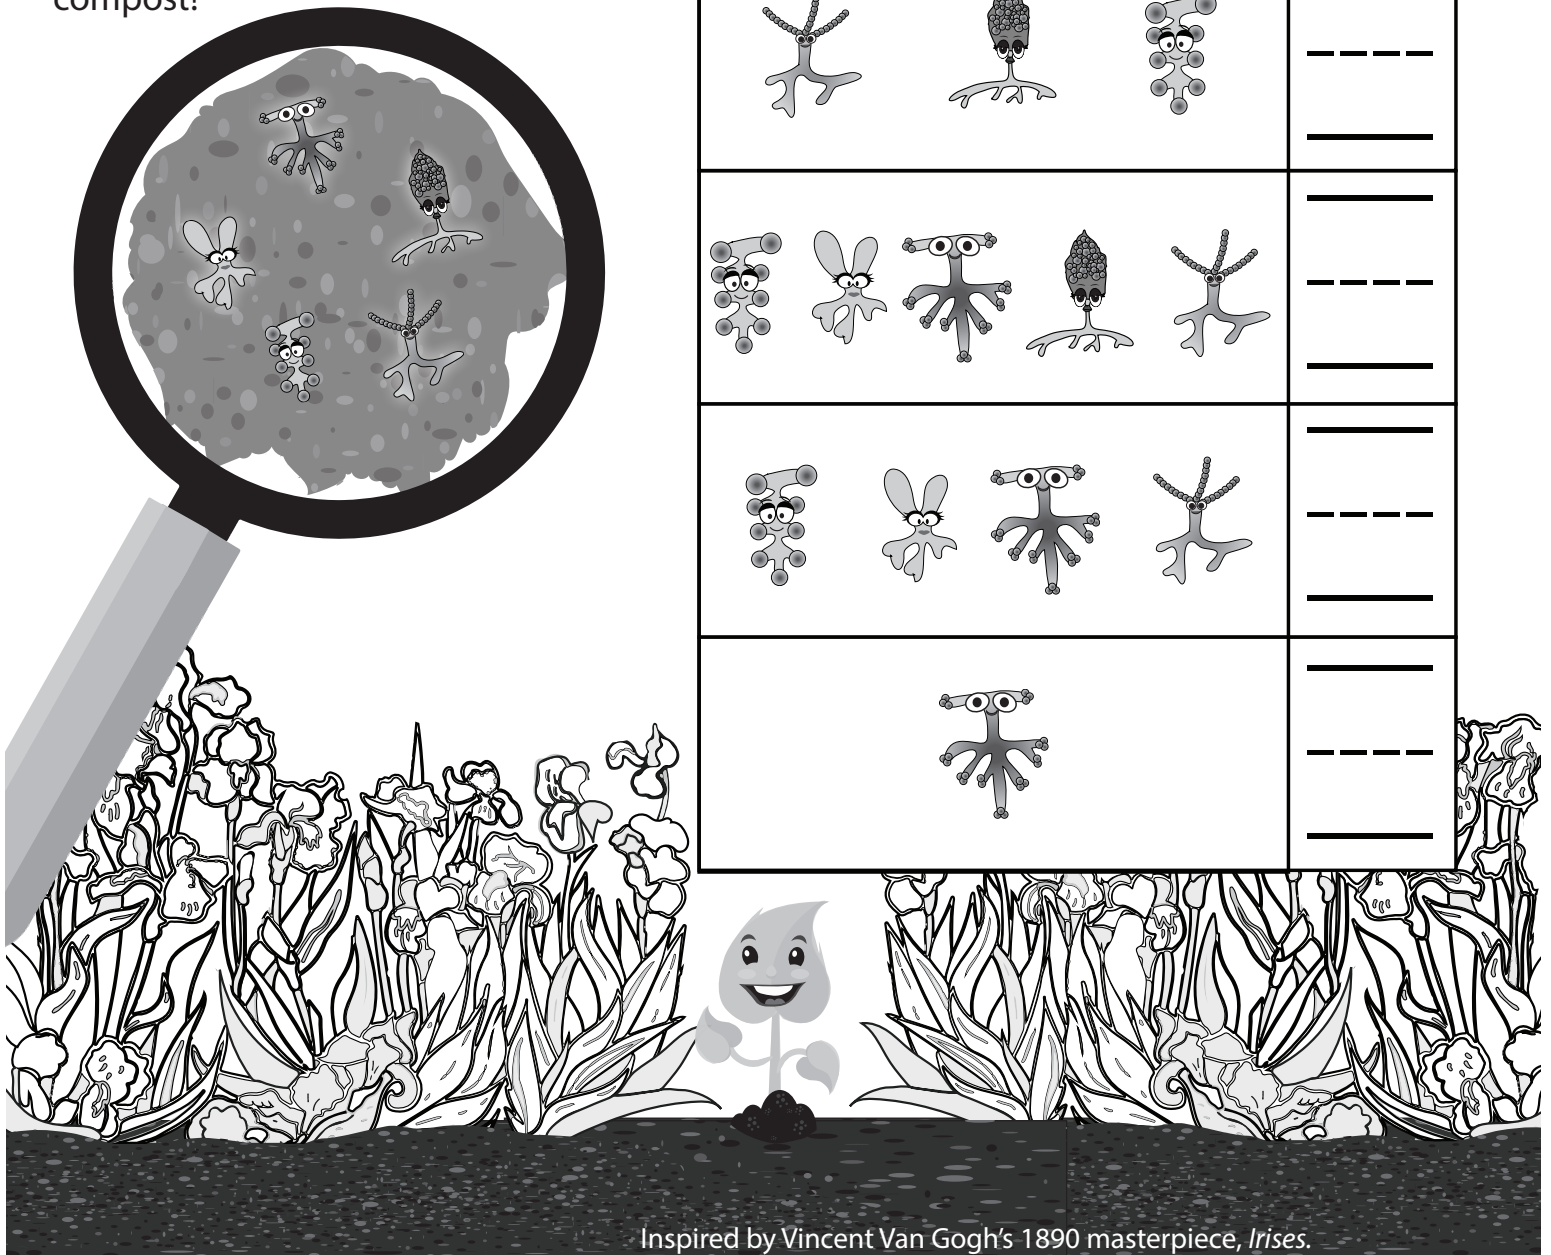

Special bacteria break down all the fruits, veggies, and yard clippings or organic matter that you put into your green organics cart?

The pile heats up when they are working their hardest!

When they are done, you've got compost!
